- MouseBot is a cross-platform desktop automation available as an open-source NPM package.
- Developed with Rust and Node.js with Neon bindings.

MeetUps With Friends

📅 11/2019

- MeetUps With Friends is a group meetup organizer application where users may set up meeting dates with other users.

AREA OF INTEREST

Mobile App Development

Machine Learning

Web and Server Development

Cross-Platform Frameworks

System Programming

TECHNICAL SKILLS

React Native   Node.js   Flutter

React.js   Tensorflow   Express.js

Electron.js   SQL   NoSQL   Git

Linux   Data Structures   OOP

PROGRAMMING

JavaScript & TypeScript	●●●●●
Python	●●●●○
C++	●●●●○
C	●●●●○
Dart	●●●●○
Rust	●●●○○

EDUCATION

Computer Engineering
Istanbul Technical University
GPA: 3.30

📅 2017 - Present   📍 Istanbul, Turkey

- Took courses about OOP, Data Structures, Linear Algebra, Numerical Methods, Operating Systems, Analysis of Algorithms, Learning From Data, and Database Systems.

LANGUAGES

- English - Native Language
- Turkish - Native Language

HOBBIES

Playing The Guitar

Playing The Keyboard

- iOS App - Android App - React App
- Developed with React, Express, and React Native.
